

Model type:
TVM63XNA

Commercial code:
F063076

General notes

Technical Documentation guidelines

You can find herewith some generic information to simplify consulting of technical documentation:

1. Models of same range share the same exploded views, which report the richest set of spare parts: generally, a model does not necessarily have a related spare part for each particular shown on exploded views.
2. Some spare parts can not be represented directly on the exploded views (instruction booklets, specific kit, etc...). You can find those codes in the spare parts list with the same reference of particular where spares are installed or with references 099, 999. Instruction booklets, once managed, appear with 000 reference.
3. On the higher right site of each exploded view there is a serial number which indicates the beginning of the production of certain range: some models might have more than an exploded view for a given category, each distinguished by a different serial no. and linked to another spare parts list, In this case, serial no. is required to supply the right spare part code. Exploded view to be considered is the one with a more recent serial no. but previous than the one of the model that needs assistance.
4. Exploded views might require further updates even after publishing. Addition of new spares will go on following the already existing numeration references. Revision number of an exploded view is shown into last four digits of serial number into upper right hand corner.
5. The spare parts list associated to an exploded view shows related codes of spares managed for a certain model; for each spare part other informations are available:

REF: reference no of spare into a table; SUBSTITUTE: list of spare(s) which can replace a code but that keeps same functional characteristics

INDUSTRIAL CODE: list of variables of a model (shown into model label) where such spare is used; NOTICE: code of information(s) to refer to complete technical intervention, track for changes or to find correct spare part code.
6. Some notices, into a same section are generic therefore cannot be directly linked to a spare part. In order to assist a model in the best way as possible, it is helpful to pay attention to all notices and constantly verify documentation updates
7. Technical documentation cover shows model name and its commercial codes

Notices

n1040357: Fixing bracket for installing Dryers on Washing Machines

The spare part KITS for installing the Dryers affected by this note on Washing Machines are the following:

- Spare part code C00115839 KIT for VENTED DRYERS - WHITE
- Spare part code C00114866 KIT for CONDENSER DRYERS - WHITE
- Spare part code C00149478 KIT with SHELF for CONDENSER/VENTED - WHITE
- Spare part code C00280677 (exC00142690) KIT VENTED DRYERS USA 2010 - white
- Spare part code C00280679 KIT VENTED DRYERS USA 2010 - SILVER
- Spare part code C00280681 (exC00142830) KIT CONDENSER DRYERS USA 2010 - white
- Spare part code C00280680 KIT CONDENSER DRYERS USA 2010 - SILVER

n4411a00: USA VENTED HEATER CHANGES

FROM SERIAL NUMBER 10108.0000 A NEW HEATER WITH A COLOMBO CONNECTOR HAS BEEN USED IN PRODUCTION.

THIS NEW HEATER IS NOT INTERCHANGEABLE WITH THE PREVIOUS ONE.

SEE PARTRS LIST FOR CORRECT PART.

n4411g01: VENTED DOOR SEALS

ON SELECTED TUMBLE DRYERS FROM JUNE 2011 THE DOOR SEAL COLOUR CHANGED FROM GREY TO WHITE.

SELECTED THE CORRECT PART BY DESCRIPTION IN THE PARTS LIST

n4412c01: VENTED TUMBLE DRYER DRUM LIFTER

From Sept 2011, a curved drum lifter, has been used in production, the new lifter is fully interchangeable with the original straight drum lifter, once stock of the straight drum lifter is exhausted, the curved drum lifter will become the Service Spare, for all production dates”.

n4409k00: FRONT AIR DUCT & AIR DUCT SEAL

FRONT AIR DUCT SEAL

Both 14mm and 16mm Air Duct Seals have been used in production.

14 mm - used Before Serial No. 50501.0000 (May 2005) and After 00107.0001 (July 2010)

16 mm - used Between Serial No.s 50501.0001 (May 2005) and 00107.0000 (July 2010) - See note below

If replacing only the Seal - select the CORRECT size from the parts list.

AIR DUCT

White Air Ducts were used in production from 10601.0000 (June 2011), the only difference to the Grey Ducts is the colour change.

WHITE AIR DUCTS ONLY will become the only Service Air Duct Once Stock of the Grey Air Ducts is exhausted

If the original air duct is grey, the air duct kit is required which includes a white filter.

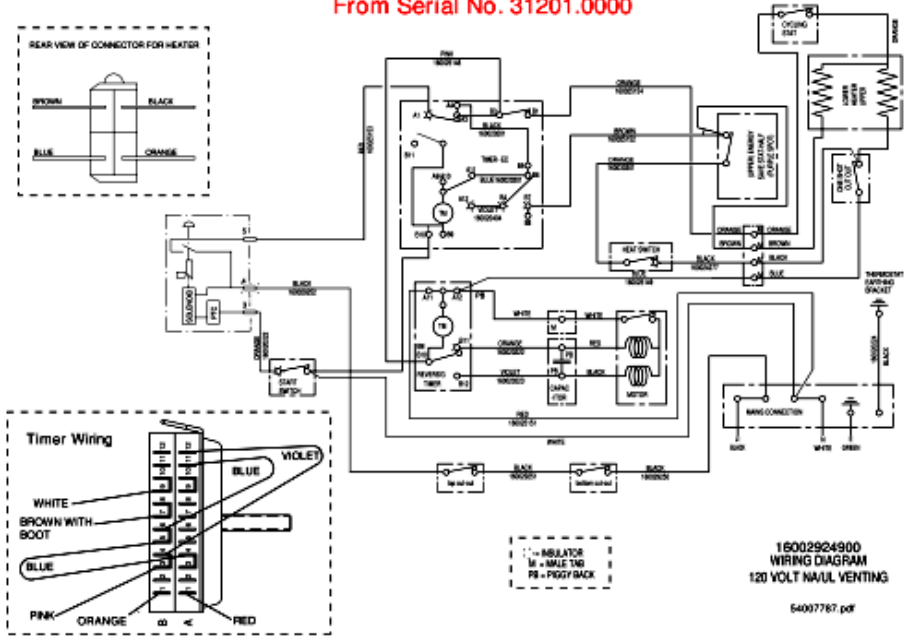

NOTE: ALL SERIAL NUMBERS:

If the AIR DUCT is being replaced you will require a 14mm Seal because the service replacement AIR DUCT is 14mm. See parts List
